Meeting Agenda

- **Lunch (bring your own) and welcome.** George Strebel – Williamson County
- **Presentations**
 - **National Weather Service - *National Water Model Flood Inundation Mapping.***
The National Weather Service is taking the next step in the process that began years ago with the creation of the National Water Model; forecast Flood Inundation Mapping. South Central Texas is in the initial release of these products that will be available October 1 with a target of 100% of the US population by 2026. Three different types of inundation mapping will be made available to partners and public alike. This presentation will give an introduction of these products as well as cover known deficiencies and where you can access the data to allow importing them into your existing GIS services. Paul Yura Warning Coordination Meteorologist and Chris Morris, Senior Service Hydrologist both out of the Austin – San Antonio Office.
- **WCGISC Updates**
 - GIS Day 2022 Follow up/Update – Cindy Bridges – WilCo
- **Local Updates/Recaps**
 - **City of Round Rock - *Move Up Analysis Web Experience and Dashboard*** – Nathan Smith, Geospatial Services Manager City of Round Rock
 - **Williamson County – *Introduction to FloodMapp Data as a Service (DssA) Product*** – George Strebel, GIS Manager Williamson County

- **Set the next meeting date and adjourn.**
